

## **YOUR SPONSORSHIP JOURNEY**

You can write letters to your sponsored child and they can write to you too. You'll also receive photos of them, and get regular updates on their progress.

You'll get to see your gift in action, and the support it provides to help communities break the poverty cycle. If you're feeling adventurous, you can even visit your sponsored child.

Through your sponsorship, children can access things like:

- nutritious meals and skills on cooking and growing their own healthy food
- harmonious environment at the school and home
- education and school materials

In our community, a child sponsorship can set the foundations for a stable family income through holistic skills and business training for parents, so parents can sustain a nurturing family and support their children for the long term.
