

YOUR SPONSORSHIP JOURNEY

You can write letters to your sponsored family and they can write to you too. You'll also receive photos of them, and get regular updates on their progress.

You'll get to see your gift in action, and the support it provides to help communities break the poverty cycle. If you're feeling adventurous, you can even visit your sponsored family.

Through your sponsorship, families can access things like:

- nutritious meals and skills on cooking and growing their own healthy food
- harmonious environment at the centre and home
- training, education and learning materials
- mentoring and support when seeking employment and earning opportunities.

In our community, a family sponsorship can set the foundations for a stable family income through holistic skills and business training for parents, so they can sustain a nurturing family and support their children for the long term.
